Human Parasitology (2nd Revised edition)

By Fatik Baran Mandal

Prentice-Hall of India Pvt.Ltd. Paperback. Book Condition: new. BRAND NEW, Human Parasitology (2nd Revised edition), Fatik Baran Mandal, The book, in its Second Edition, has been thoroughly revised considering the feedback received from the readers. The text has been simplified. New information has been added, and at the same time, extra details have been deleted to make the book concise. The new edition introduces a chapter on Medically Important Snails (Chapter 9). We, the human are the host of many parasites, which cause major public health problems, untold suffering and death. Thus, three major groups of parasites--protozoa (flagellates, amoebas, and malarial parasites), helminthes (flukes, tapeworms, and roundworms), and arthropods (insects and arachnids) have been discussed with suitable illustrations. Morphology, lifecycle, mode of transmission, incidence, symptoms, diagnosis, and prevention of medically important parasites have been discussed in light of recent researches. In addition, the chapters, namely, the Evolutionary Aspects of Hosts and Parasites and Present Trends of Parasitic Importance add further value to the book. The book has been written for the undergraduate and postgraduate students of Zoology and other Life Sciences disciplines. In addition, the medical students, public health workers and health professionals also find this text useful. Key Features:...

Reviews

This publication will never be straightforward to get going on looking at but really fun to see. This can be for all those who statte that there had not been a worth looking at. You wont really feel monotony at at any moment of your own time (that's what catalogs are for about should you request me).
-- Cale Hansen Sr.

Merely no phrases to spell out. I am quite late in start reading this one, but better then never. Your way of life period is going to be enhance once you complete reading this publication.
-- Joanie Hamill I
