Fire Administration, National Fire Data Center, 1989 OCLC Number: (OCLOC)70966328 Subject: Chemical plants -- Fires and fire prevention -- California -- Ventura County. Excerpt: . . . USFA-TR-029 April 1989 5 officers reported feeling ill and extremely fatigued. He was decontaminated with a hose stream and transported by ambulance to a hospital where he received treatment in a hyperbaric chamber. After decontamination, the remaining 14 members of the attack team and the property owner were transported to the hospital for evaluation. All of these individuals were tested and released, showing no symptoms of exposure injury. The command post was rapidly relocated and a reassessment of the situation was made. The county sheriffs representative was asked to begin evacuating the residential and business occupancies to the north at 2118. The evacuation took place in two phases, eventually involving 1, 500 residents. Two additional Hazmat teams were requested, from Santa Barbara and Los Angeles Counties, each responding from over 50 miles to the scene. The fire became very spectacular as the large quantities of flammable liquids stored in the building became involved. Flames extended to the two occupancies north of the chemical company, and they were also totally destroyed. With most of the available fuel consumed, the fire died down at approximately 0200 hours. Hazmat teams members wearing B-level protective clothing over structural firefighting protective clothing made an entry into the fire area at that time to complete extinguishment. Runoff from the fire was contained by diking the roads and parking lots around the building. In the process of diking, an additional fire department member reported symptoms of exposure to chemical vapors while assisting a backhoe operator....
