

Exploring Vocabulary: Language in Action (Paperback)

By Dee Gardner

Taylor Francis Ltd, United Kingdom, 2013. Paperback. Book Condition: New. 234 x 156 mm. Language: English . Brand New Book. Routledge Introductions to Applied Linguistics is a series of introductory level textbooks covering the core topics in Applied Linguistics, primarily designed for those beginning postgraduate studies, or taking an introductory MA course as well as advanced undergraduates. Titles in the series are also ideal for language professionals returning to academic study. The books take an innovative practice to theory approach, with a back-to-front structure. This leads the reader from real-world problems and issues, through a discussion of intervention and how to engage with these concerns, before finally relating these practical issues to theoretical foundations. Additional features include tasks with commentaries, a glossary of key terms, and an annotated further reading section. Vocabulary is the foundation of language and language learning and as such, knowledge of how to facilitate learners vocabulary growth is an indispensable teaching skill and curricular component. Exploring Vocabulary is designed to raise teachers and students awareness of the interplay between the linguistic, psychological, and instructional aspects of vocabulary acquisition. It focuses on meeting the specific vocabulary needs of English language learners in whatever instructional contexts they may...
